The specific timing, price and size of purchases will depend on prevailing stock prices, general economic and market conditions, and other considerations. The repurchase program does not obligate the company to acquire any particular amount of common stock, and the repurchase program may be suspended or discontinued at any time at the company’s discretion.

**Non-GAAP Financial Measures**

Credit Adjusted EBITDA is a non-GAAP financial measure and should not be construed as an alternative to net income as an indicator of operating performance, nor as an alternative to cash flow provided by operating activities as a measure of liquidity, or any other performance measure in each case as determined in accordance with GAAP.

Below is a reconciliation of Credit Adjusted EBITDA to net income, the closest GAAP financial measure. Our Credit Agreement defines Adjusted EBITDA (which we call "Credit Adjusted EBITDA") as net income before (i) interest expense, (ii) interest income, (iii) provision for income taxes, (iv) depreciation and amortization expense, (v) impairment charges, (vi) stock-based compensation, (vii) contingent consideration, (viii) acquisition and related expenses, and (ix) certain other items. We calculate Credit Adjusted EBITDA Margin as Credit Adjusted EBITDA divided by revenues.

Credit Adjusted EBITDA and Credit Adjusted EBITDA Margin as calculated herein may not be comparable to similarly titled measures reported by other companies within the industry and are not determined in accordance with GAAP. Our presentation of Credit Adjusted EBITDA and Credit Adjusted EBITDA Margin should not be construed as an inference that our future results will be unaffected by unusual or unexpected items.
